

MULTI-DIMENSIONAL REVIEW OF THAILAND

PHASE II – IN-DEPTH ANALYSIS

GUIDELINES FOR FIELD INTERVIEWS

27 MAY – 1 JUNE 2018

Group C : WATER CHAPTER

GENERAL REMARK

* The interviews are meant to be informal and open—they don't consist in data request (which are all addressed in the written questionnaire).

* This draft works as a guideline for the interview. Authors may ask further related questions for clarifications or to deepen knowledge about any aspect or issue raised during the interview.

Authors will ask questions to understand:

- Role and key activities of River Basin Committees
- Details of any charges or tariffs for water and sanitation
- Details of monitoring and enforcement regarding water and sanitation
- Data availability regarding water resources management
 - E.g. water use by sector
 - Water allocation to each sector
- Regional experiences of recent floods and droughts
- Regional experiences of infrastructure planning and development
- Key issues and challenges with regard to water and sanitation
- Regional considerations with regard to transboundary water management
